# Jonathan Yu

Target Role: AI Success Engineer

Compensation: $234K-$260K + equity

Founder / Technical Customer Enablement Lead / AI Adoption Builder

Las Vegas, NV | JonYu3@gmail.com | 617.637.0668 | SipStudies.com | Sipopedia.com

Remote US preferred from Las Vegas; open to San Francisco travel or hybrid only for the right economic and career fit.

## TARGET SUMMARY

Customer-facing founder-builder with deep education, sales enablement, product implementation, and workflow adoption experience. Built Sip Studies as an AI-enabled learning and terminology platform while maintaining a decade-long record of customer, supplier, and stakeholder enablement in wine and spirits. Strong fit for AI Success work that requires customer workflow translation, technical-business translation, adoption planning, workshops, account health, and measurable value realization. Uses AI-assisted product building to prototype customer workflows and validate product ideas while keeping a human-owned build process: problem framing, AI-assisted implementation, validation, documentation, and customer interpretation.

## ROLE-ALIGNED STRENGTHS

- Reframes beverage, education, sales, and events as the base layer for customer workflow translation, trust building, and adoption behavior.
- Uses AI-assisted product building, agentic harnessing, and workflow prototyping to make ambiguous product ideas concrete and reviewable.
- Keeps the boundary clear: AI accelerates implementation and exploration, while Jonathan owns the judgment, prompts, review, testing, documentation, customer interpretation, and final behavior.
- Combines hands-on technical product building with long-running customer-facing sales and education responsibilities.
- Can map ambiguous workflows into structured adoption plans, training materials, metrics, and operating rhythms.
- Has quantified business impact: 3,500+ placements and a $2.291M wine revenue lift at Lee's Liquor.
- Built platform work touching auth, paid access, Supabase, Edge Functions, AI/news routing, validation, and documentation through AI-assisted development workflows.
- Experienced at making complex product concepts useful to executives, managers, customers, and learners.

## HUMAN-OWNED AI BUILD PROCESS

- I use AI-assisted product building to prototype customer workflows and validate product ideas.
- My build process is human-owned: problem framing, AI-assisted implementation, validation, documentation, and customer interpretation.
- Every reviewable project should separate what AI did from what Jonathan decided.
- Beverage, education, sales, and events are the base layer for customer workflow translation, not a detour from technical enablement.

- The stronger claim is that I know where AI helps, where human judgment remains responsible, and how to build a workflow around that boundary.

## TECHNICAL, PRODUCT, AND ENABLEMENT SKILLS

- Customer workflow translation
- AI-assisted product building
- Agentic harnessing and Codex-style workflow prototyping
- Validated build process documentation
- Technical enablement and customer education
- Customer adoption and value realization
- Technical enablement and configuration framing
- Workflow mapping and use-case validation
- Program management and stakeholder coordination
- KPI baselines and success metrics
- AI-assisted product development across web, auth, payments, and data workflows

## EXPERIENCE

### Sip Studies - Founder, Product Lead, Beverage Education Platform Builder
2024 - Present

- Using AI-assisted, repo-driven workflows, built a React/TypeScript, Vite, Supabase, Stripe, and Edge Function workspace across Learn, Taste, and Connect: Sip Academy, Sipopedia, Beverage Quiz, Maps, Flavor Wheel, Tasting Journal, Beverage News, AI Winecast, and Somm Events.
- Created a 20,000-row Sipopedia terminology pipeline with citation/review metadata plus a media-rich learning asset base featuring Sippy, Roma, Hummin, maps, game scenes, academy realms, equipment visuals, and infographics.
- Developed AI/news routing, Daily Sip editorial automation, terminology workflows, paid-access architecture, validation scripts, and buyer-facing valuation/IP materials around a $4.5M strategic acquisition thesis.

### On Location Experience - VIP Experience Consultant
Sep 2021 - Present

- Served UFC VIP Experience as the primary event portfolio while also supporting Slap, NFL, NHL, and NASCAR premium guest experiences in high-energy live environments.

### Breakthru Beverage Group - Sales Consultant - Off & On Premise Wine
Sep 2015 - Present

- Built and maintain weekly Critical On Hand / Gap Analysis workbooks used to analyze customer POD gaps, on-hand inventory, days on hand, sales movement, incentives, and account opportunities.
- Converted account, inventory, incentive, and reference-file data into weekly execution priorities for placements, displays, supplier conversations, education, and team account support.
- Earned 2018 Sales Consultant Excellence Award; expanded 3,500+ placements and increased wine revenue by $2,291,000 within Lee’s Liquor.
